Success is a concept universally embraced but individually defined. Our definition of success truly depends on our individual goals. For example, your goal might be monetary, a physical accomplishment or a moral achievement. To flesh out this topic, we are adding a few comments made by famous and successful people in diverse fields - similar and familiar concepts to those put forward by the Premier Experts(r) in this book. Success is to be measured not so much by the position that one has reached in life as by the obstacles which he has overcome while trying to succeed. Booker T. Washington You can succeed best and quickest by helping others to succeed. Napoleon Hill The difference between a successful person and others is not a lack of strength, not a lack of knowledge, but rather a lack in will. Vince Lombardi Nothing can stop the man with the right mental attitude from achieving his goal; nothing on earth can help the man with the wrong mental attitude. Thomas Jefferson In our New Economy, the acquisition of success has been reformatted somewhat by business and industry even though its principles remain the same. The Electronic Revolution has changed the economic landscape as much as the Industrial Revolution. We now live more and more in "real time" and expect others to do the same. This era of instant communication has changed the ways in which we communicate and expect responses. To succeed today, it is useful, perhaps essential, to have a mentor. Errors will be made, but to minimize them will speed up your journey. The Premier Experts(r) in this book will help you along the way. They have been there and know the road. Who would be better to guide you? They will illuminate your path to The Soul Of Success.

A delightful but powerful story that offers children lifelong lessons about believing in themselves, bolstering their self-esteem, and turning the words "I Can't" into "I Can!" Molly has been chosen to be the next Star of the Day! Most kids would be excited. Molly, however, is terrified! She just can't speak in front of her class. She worries all day. She frets all night. "I can't . . . I can't," Molly convinces herself. Or can she? I Can Believe in Myself is a book that challenges children to change the way they think. Other themes in this book include compassion, confidence, and self-esteem as Molly convinces her classmates—and even her teacher—that they can, indeed, change their perceptions and do things they never thought possible.

The starting point of all achievement is desire. Napoleon Hill Mastering a job means we are proficient at performing that particular task successfully. It is also useful to note here that the word "success" has different meanings to different people. Success can mean, among other things: fame, fortune, emotional or skillful achievement. Proceeding through our growth years to maturity, we spend time and effort accumulating knowledge and resources, assessing our strengths and limitations, and taking action based on what we have learned. As we grow, so does our appetite for adventure and success. So, fortified with our initial progress, we set out to test our strength against the world. For those who achieve mastery of one job, the taste of success and the confidence it generates often propels them to attempt to master other tasks. To accomplish a chosen undertaking is synonymous with success; however, learning to master more significant tasks is often our real challenge. That’s where the Celebrity Experts(R) in this book come in. They have achieved mastery in their various fields and are willing to share their secrets and methods of mastery with you. An integral quality of successful people is their willingness to help others succeed. One of the finest secrets for Mastering the Art of Success can be found in the following quote: I have not failed. I've just found 10,000 ways that won't work. Thomas Edison

The pillars successful people most o en utilize include specialized knowledge, planning, and perseverance. The greatest detracting elements are typically procrastination, inaction and analysis paralysis - these provide a convenient conduit to allow us to extract ourselves out of such ventures. To execute our plans, our desire to succeed must be greater than our fear of failure. The Celebrity Experts(R) in this book have achieved success in various fields. By observation and following their methods, we can reduce the time we spend experimenting with our own procedures - often a trial-and-error approach. These authors invariably tried and likely failed many times in their efforts to reach their goal, but their mentoring can save you untold amounts of time and heartbreak on your journey to success.
