The purpose of this manual is to provide clear and helpful information for maintaining gravel roads. Very little technical help is available to small agencies that are responsible for managing these roads. Gravel road maintenance has traditionally been "more of an art than a science" and very few formal standards exist. This manual contains guidelines to help answer the questions that arise concerning gravel road maintenance such as: What is enough surface crown? What is too much? What causes corrugation? The information is as nontechnical as possible without sacrificing clear guidelines and instructions on how to do the job right.

#1 NEW YORK TIMES BESTSELLER • GOOD MORNING AMERICA BOOK CLUB PICK • "A heartwarming mystery with a lovable oddball at its center" (Real Simple), this cozy whodunit introduces a one-of-a-kind heroine who will steal your heart. "The reader comes to understand Molly's worldview, and to sympathize with her longing to be accepted—a quest that gives The Maid real emotional heft."—The New York Times Book Review (Editors' Choice) "Think Clue. Think page-turner."—Glamour In development as a major motion picture produced by and starring Florence Pugh Molly Gray is not like everyone else. She struggles with social skills and misreads the intentions of others. Her gran used to interpret the world for her, codifying it into simple rules that Molly could live by. Since Gran died a few months ago, twenty-five-year-old Molly has been navigating life's complexities all by herself. No matter—she throws herself with gusto into her work as a hotel maid. Her unique character, along with her obsessive love of cleaning and proper etiquette, make her an ideal fit for the job. She delights in donning her crisp uniform each morning, stocking her cart with miniature soaps and bottles, and returning guest rooms at the Regency Grand Hotel to a state of perfection. But Molly's orderly life is upended the day she enters the suite of the infamous and wealthy Charles Black, only to find it in a state of disarray and Mr. Black himself dead in his bed. Before she knows what's happening, Molly's unusual demeanor has the police targeting her as their lead suspect. She quickly finds herself caught in a web of deception, one she has no idea how to untangle. Fortunately for Molly, friends she never knew she had unite with her in a search for clues to what really happened to Mr. Black—but will they be able to find the real killer before it's too late? A Clue-like, locked-room mystery and a heartwarming journey of the spirit, The Maid explores what it means to be the same as everyone else and yet entirely different—and reveals that all mysteries can be solved through connection to the human heart.

This textbook provides an overview for students in Criminology and Criminal Justice about the overlap between the criminal justice system and mental health. It provides an accessible overview of basic signs and symptoms of major mental illnesses and size of scope of justice-involved individuals with mental illness. In the United States, the criminal justice system is often the first public service to be in contact with individuals suffering from mental illness or in mental distress. Those with untreated mental illnesses are often at higher risk for committing criminal acts, yet research on this population continues to shed light on common myths – such a prevailing assumption that those with mental illness tend to commit more violent crimes. Law enforcement agents may be called in as first responders for cases of mental distress; and due to a lack of mental health facilities, resources, and pervasive misconceptions about this population, those with mental illness often end up in the corrections system. In this environment, students in Criminology and Criminal Justice are likely to encounter those with mental illness in their future career paths, and need to be prepared for this reality. This timely work covers the roles of each part of the criminal justice system interacting with mentally ill individuals, from law enforcement and first responders, social services, public health services, sentencing and corrections, to release and re-entry. It also covers the crucial topic of mental health for criminal justice professionals, who suffer from high rates of job stress, PTSD, and other mental health issues. The final section of the book includes students suggestions for future research. This work will be of interest to students of criminology and criminal justice with an interest in working in the professional sector, as well as those in related fields of sociology, psychology, and public health. It will also be of interest to policy-makers and practitioners already working in the field. The overall goal of this work is to inform, educate, and inspire change.

Harm to Others offers students and clinicians an effective way to increase their knowledge of and training in violence risk and threat assessment, and it also provides a comprehensive examination of current treatment approaches. Although the text includes many examples from K-12 and college/university settings, which are particularly relevant for mental health professionals in school settings, the underlying concepts and suggestions are useful for counselors, psychologists, and social workers who face these issues in their daily practice. In an easy-to-understand, jargon-free manner, Dr. Van Brunt shares his observations,

extensive clinical expertise, and the latest research on what clinicians should be aware of when performing risk and threat assessments. In addition, he offers numerous examples from recent mass shootings and rampage violence to help explain the motivations and risk factors of those who make threats. Two detailed case examples are presented to illustrate key concepts related to assessing dangerousness. Treatment options are then described, using a variety of diverse case studies to demonstrate concrete approaches for clients who have been identified as at risk for violence following a threat assessment. *Requests for digital versions from the ACA can be found on wiley.com. *To request print copies, please visit the ACA website here. *Reproduction requests for material from books published by ACA should be directed to permissions@counseling.org.

"Tenney Flynn is the grand master of Gulf Coast seafood. This book, full of his delicious recipes and deep sea wisdom, can lead you to mastery as well" (Lolis Eric Elie, author of Treme: Stories and Recipes from the Heart of New Orleans). More than 100 delicious recipes and tips to help home cooks master cooking all kinds of seafood from the owner of GW Fins restaurant and two-time winner of the New Orleans Magazine "Chef of the Year" Award. Tenney Flynn's easygoing, engaging style gives readers a tour of his hometown along with a toolkit for cooking seafood, from testing freshness at the market to pairing delicious fish recipes with sides and wines to create a finished menu. From classic Barbecued Shrimp and simple Sautéed Fillets with Brown Butter and Lemon to adventurous Pompano en Papillote with Oysters, Rockefeller Spinach, and Melted Tomatoes and sophisticated Lionfish Ceviche with Satsumas, Limes, and Chiles, Chef Flynn makes cooking fish "as easy as frying an egg." "Tenney Flynn talked trash (fish) early on. He championed fresh Gulf seafood when most chefs crushed on frozen Atlantic salmon. Now, it's time to learn how smoked sizzling oysters came to be, how to do redfish on the half shell right, and how GW Fins helped lead the modern seafood revolution." —John T. Edge, author of The Potlikker Papers: A Food History of the Modern South "I love that Chef Tenney shares so much how-to and comprehensive info on seafood selection. Recipes are clear and concise, photos excellent." —Frank Brigsten, James Beard Award-winning chef-owner of Brigtsen's in New Orleans

"The brilliantly expressive clay models created by Gian Lorenzo Bernini (1598-1680) as "sketches" for his works in marble offer extraordinary insights into his creative imagination. Although long admired, the terracotta models have never been the subject of such detailed examination. This publication presents a wealth of new discoveries (including evidence of the artist's fingerprints imprinted on the clay), resolving lingering issues of attribution while giving readers a vivid sense of how the artist and his assistants fulfilled a steady stream of monumental commissions. Essays describe Bernini's education as a modeler; his approach to preparatory drawings; his use of assistants; and the response to his models by 17th-century collectors. Extensive research by conservators and art historians explores the different types of models created in Bernini's workshop. Richly illustrated, Bernini transforms our understanding of the sculptor and his distinctive and fascinating working methods."--Publisher's website.

This playful collection of rainbows is a bright and beautiful appreciation of all the color that surrounds us. Artist Julie Seabrook Ream invites us to see the extraordinary beauty of ordinary objects: she gathers colorful iterations of a single type of thing, from feathers to fishing gear, matchbooks to macarons, and neatly arranges them in rainbow order. A fascinating index details all the objects in each rainbow, bringing the magnetic appeal of meticulous organization to this burst of color in book form. A striking package— with foil stamping on the cover and a rainbow-colored exposed spine—makes this celebratory book a treasure for those who love art, design, and a fresh perspective.

Steeped in musical influence, racial dynamics, and culinary significance, the Ninth Ward has distinguished itself as one of New Orleans' most influential communities. Extensively researched and carefully recorded, this new oral record features unique interviews with generations of residents. Each source honestly evaluates discrimination, neighbors, poverty, and faith, delivering heartfelt and often harrowing insight into what it means to be from the Ninth Ward. Each chapter chronicles one of the metaphorical and actual storms the area has weathered and is seamlessly woven into a comprehensive record by people who know the Ninth Ward best. A specialist in Ninth Ward history and a New Orleans native, Caroline Gerdes is a freelance journalist who frequently publishes in the Huffington Post and other national platforms. The Advocate (Baton Rouge, LA) and the New Orleans Times-Picayune have interviewed her as a regional oral historian, and she is also a Women's Media Center SheSource expert. Gerdes received a grant from the National Geographic Society to preserve the history of the Ninth Ward through an oral history project, which she has now adapted into this book.
