This report provides an overview of activities in 2020 that demonstrate the impact of research supported by TDR to improve the health and well-being of people burdened by infectious diseases of poverty. This body of research is leading to new solutions for implementation and improved access to existing health solutions. This is the result of TDR ' s strategic priorities of research for implementation, strengthening research capacity and global engagement acting in an integrated manner.

This riveting "biography of a nobody" offers a rare view of empire from the bottom up and a glimpse of the making of modern China. Robert Bickers mines the letters of Richard Tinkler along with archival files to create a fascinating and much-needed narrative of everyday life in the colonial world and an unvarnished portrait of the colonial experience that will permanently affect our view of it.

Interest in oceanography and marine biology and its relevance to global environmental issues continues to increase, creating a demand for authoritative reviews that summarize recent research. Oceanography and Marine Biology: An Annual Review has catered to this demand since its foundation, by the late Harold Barnes, more than 40 years ago. It is an

The Sustainable Development Goals (SDGs) (2016-2030) set by the United Nations in 2015 restated the importance of universal primary education for all, and specifically discuss quality, equity, and inclusion in basic education. To achieve this, the role of community has been emphasized and participation has become a "buzzword" in international development over the past several decades. Despite the growing attention to community participation in school management, previous literature has shown mixed results in terms of its actual practice and its impacts on quality, equity, and inclusion in education. This book deepens the contextual understanding of community in developing countries and its involvement in schools in general, and its impact on quality, equity, and inclusion of school education in particular. By presenting various case studies in Asia, Africa, Latin America, and a post-conflict state in Europe, the book analyses commonalities and differences in the ways communities are involved and cast their impacts and challenges. The book contributes knowledge on the ways in which community involvement could work in developing countries, the detailed processes and factors that make community participation work in different dimensions, and remaining challenges that scholars and practitioners still need to be concerned and mindful in the field. This book will appeal to both researchers and practitioners who are concerned about the community participation approach for the SDGs.

Introduce your students to strategic management with the market-leading text that sets the standard for the course area. Written by respected scholars who have taught strategic management at all educational levels, Hitt, Ireland, and Hoskisson's latest edition provides an intellectually rich, yet thoroughly practical, analysis of strategic management. The classic industrial organization model is combined with a resource-based view of the firm to provide students with a complete understanding of how today's businesses establish competitive advantages and create value for stakeholders. Cutting-edge research is presented with a strong global focus, featuring more than 500 emerging and established companies. All-new opening cases introduce chapter concepts and mini cases offer new contexts of study. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.
