introduces them to the field's many aspects, it often focuses on past controversies and present resolutions. The text continues to show the development of financial reporting as a product of intense and considered debate that continues today and into the future. The writing style of the eleven previous editions has been highly praised. Students easily comprehend chapter concepts because of the conversational tone used throughout the book. The authors have made every effort to ensure that the writing style remains engaging, lively, and consistent which has made this text the market leading text in the Advanced Accounting market. The 12th edition includes an increased integration of IFRS as well as updated accounting standards.

Advances in Accounting Education features 13 papers surrounding four themes: curriculum and pedagogical innovations, faculty reflections on teaching accounting during the COVID-19 pandemic, research on passing professional exams in accounting, and historical underpinnings and the choice of taxation as an area of specialization.

Accounting has become known as the language of business. This new edition is written to meet the needs of those students who will not be accountants but who do need to understand accounting to learn the key language that embarks us in the business world. Marshall, the leading text in the Survey market, takes readers through the basics: what accounting information is, what it means, and how it is used. The authors help students succeed through clear and concise writing, a
