Answer- Document splitting is a new concept in SAP it enable to split the line items, it activated at profit center level or segment level. it creates additional line item & it used to reduce inter plant transactions. Is This Answer Correct ? 5 Yes

What is meant by Document Splitting in SAP
The document splitting rule is defined in such a way that the tax items are split based on the expense item (item category 2000) and the balance sheet item (item category 01000). Since the split tax items are required as a basis for splitting the vendor line items the tax items are split before the vendor line items are split.

Need to set up document splitting in SAP S/4HANA? This step-by-step guide is for you! You'll walk through each configuration task for both basic and extended document splitting in the IMG, covering everything from zero-balance clearing accounts to splitting methods and rules. --

This book provides comprehensive, step-by-step configuration information for using Document Splitting and Balanced Segment Reporting in the SAP General Ledger. It provides implementation team members, functional finance professionals, and line-of-business managers with the implementation strategies, configuration steps, and best practices necessary to implement Document Splitting in the SAP General Ledger. Specific sections of the book focus on defining segments for use with common lines of business, configuration steps for Document Splitting, configuration of Segment Reporting, and managing a migration from the Classic General Ledger to the SAP General Ledger when Document Splitting is involved. Readers learn how to configure Document Splitting for the SAP General Ledger, including Standard and Extended Document Splitting and will quickly come to understand the common Business Transactions and how they relate to Segment Reporting and Document Splitting, including Vendor Invoice, Vendor Payment, and other financial transactions. Plus, find out how the new Segment object works in the SAP General Ledger, including how Segments are derived from Profit Centers. The author explains how best to use Profitability Reporting, Segment Reporting, and built-in tools like Report Writer and Report Painter in the SAP General Ledger and shows you how you can develop and execute a plan for migrating successfully to the SAP General Ledger using the SAP Migration Service.

This book on 'Configuring SAP General Ledger Accounting' in SAP S/4HANA Finance, covers configuring your SAP system for making use of the important functional areas of SAP General Ledger (G/L) Accounting. As with my other books on SAP, this book also follows a case-study approach to make your learning easy. Efforts have been taken, throughout the book, to guide you step-by-step in understanding how to configure your SAP system, to meet your exact business needs. Each configuration activity has been discussed with appropriate screen shots (from an SAP system) and illustrations to help you 'see' what is being discussed in that activity / step. You will see a lot of additional information, provided across the Chapters and the Sections, to help you comprehend a topic or a configuration setting or a concept better. The entire content of the book, vide various Chapters, has been presented as in SAP IMG (Implementation Guide), for easy reference. You will come across with appropriate menu paths and Transactions, to help you to navigate the various activities. The coverage includes: Case Study SAP General Ledger Accounting: Overview Features & Functionalities Pre-requisites for Configuring SAP G/L Accounting Master Data Business Transactions Periodic Processing Preparation for Productive Start Information System The book starts with a case study, setting up the tone for further discussions, outlining the various business processes that you will be configuring towards implementing SAP G/L Accounting for your business. You will come across with the case study brief per configuration activity / step, in each Chapter. We discuss the overview of SAP G/L Accounting, before moving on to discuss its important features and functionalities. You will learn about extensibility, ledger concept, document splitting, parallel accounting, segment reporting, fast close and integration of SAP FI with SAP Controlling. We, then, move on to discuss the pre-requisites for configuring SAP G/L Accounting. Here, you will learn about the important FI general settings and also on how to configure the fields, ledgers and currencies. You will learn more about parallel accounting and the FI integration with CO. While on G/L master data, we discuss the G/L account master data, the profit center master data and segment master data. We bring out, in detail, the preparations that you need to make for creating these master data, besides elaborating their creation and processing. You will, then, be taken to learn about the functionality as well as the configuration of G/L business transactions, including document splitting, open item clearing, bank account interest calculation, and adjustment posting / reversal. In periodic processing for G/L, you will learn about the various closing operations like check/count, valuate, reclassify, allocation and carry forward. We, then, discuss the preparations that you need

to make for productive start of SAP G/L Accounting system. You will learn about the preparations, in detail, for new implementation, as well as for migration from an existing non-HANA SAP system. Finally, towards the end, we discuss the G/L information system. You will learn about the various G/L reports that are available for your business, including the drilldown reports and reports created with Report Painter / Report Writer. In all, you can use this book as a desktop-reference or a refresher for configuring SAP G/L Accounting. As the Chapters have been progressively elaborated, you will find the book very informative and easy to read.

This book details the configuration required to set up the General Ledger module for a public sector entity. It includes document splitting configuration to facilitate fund accounting.

SAP ERP modules are notoriously hard to configure and use effectively without a lot of practice and experience. But as SAP ERP Financial Accounting and Controlling: Configuration and Use Management shows, it doesn't have to be so difficult. The book takes a systematic approach that leads SAP Financial Accounting and Controlling (FICO) users step by step through configuring and using all the program's facets. This approach makes configuration complexities manageable. The book's author—SAP expert, trainer, and accountant Andrew Okungbowa—ensures that both you and your end users are up and running quickly and confidently with FICO. He also provides sound and tested procedures that ensure your implementation works without error. SAP ERP Financial Accounting and Controlling: Configuration and Use Management is in fact the most comprehensive and easy-to-follow SAP FICO configuration book in the market. It incorporates a hands-on approach, with hundreds of screen shots and practical examples, that allows a person without prior configuration training to make SAP FICO ready for use in the enterprise. You'll find that you don't need to be a rocket scientist to grasp the concepts explained and apply them to your work—even when the finances are complicated, such as with the ins and outs of taxes, currency conversions, or special general ledger entries such as down payments or bills of exchange. Providing an in-depth coverage of both configuration and end user procedures, the book covers most aspects of the SAP FICO certification syllabus—SAP's view of the module's key tasks and procedures—including: Configuring and using the general ledger and accounts payable and receivable screens Configuring and completing closing procedures, asset accounting, and financial reporting Configuring global settings and enterprise variables Accounting for both profit and cost centers Creating a house bank Integrating FICO with other SAP modules Taking a jargon-free tone and providing an abundance of examples, Andrew Okungbowa provides a clear understanding of configuration techniques and the breadth of functionalities encompassed by SAP FICO. And as an accountant, Okungbowa understands the needs of end users as well as of those answering to the CIO.

This book offers a comprehensive introduction to SAP ERP Profit Center Accounting (PCA) for both classic general ledger (GL) and the new GL. Get the tools you need to set profitability targets for business (planning) and then compare actual results against those targets to improve overall profitability. Solidify your understanding of the difference between PCA and SAP Controlling Profitability Analysis (CO-PA) views. Gain in-depth knowledge of the concepts, objects, and functionality available in PCA in SAP ERP, including the relevant master data set-up, actual data flows, planning scenarios, and reporting options. Clarify the differences between PCA and CO-PA and understand when it is best to use each. Dive into profit center transfer pricing and obtain detailed configuration and set-up steps required for activation. By using practical examples, tips, and screenshots, the author brings readers up to speed on SAP Profit Center Accounting. - Fundamentals of SAP Profit Center Accounting (PCA) - Concepts, master data, actual data flow, and planning basics - Differences between PCA in classic and new GL - Reporting for Profit Center Accounting (PCA)

SAP is the world leader in Enterprise Resource Planning (ERP) software; of the software?s modules, the FI (Finance) and CO (Controlling) are by far the most popular and are widely implemented. This book has no competition?it is the only book on the market on how to configure and implement SAP?s FI and CO modules to maximize functionality and features hands-on, step-by-step instructions and real-world examples that provide immediate and practical solutions. Updated for SAP?s ECC 6.0, the book covers FI enterprise structure, general ledger, substitutions and validations, automatic account assignments, accounts payable and receivable, asset accounting, accrual engine, closing entries, credit management, lockbox, CO enterprise structure, profitability analysis (CO-PA), and more.

This up-to-date quick reference guides the reader through the most popular SAP module. It includes material on SAP ERP Financials, SAP FICO, and SAP R/3. Unlike most books that only provide questions and answers for certification or interview preparation, this book covers fifty common business situations related to ERP Financials/FICO and provides practical solutions for them. In addition, the book begins with over 200 FAQs and certification questions for those who need a quick review of the material. A CD-ROM with FICO templates, short cuts, and color figures from the book is included with the text.

This book on 'Configuring SAP Financial Accounting' in SAP S/4HANA Finance, has been published in two volumes: Volume I and Volume II. The Volume I (this book) covers: Case Study Enterprise Structure FI Global Settings I (Fields, Ledgers, Fiscal Year, Posting Period, Parallel Accounting, Integration of SAP CO with SAP FI, and Company Code Global Parameters) FI Global Settings II (Documents, Inflation Accounting and Correspondence) FI Global Settings III (Taxes including Extended Withholding Tax) G/L Accounting The Volume II covers: Case Study Accounts Receivable and Accounts Payable Contract Accounts Receivable and Payable Bank Accounting Asset Accounting Here, in Volume I, you will learn about the context and relevance of SAP HANA, SAP S/4HANA and SAP S/4HANA Finance, before actually learning the configuration of SAP Financial Accounting. This book follows a case-study approach with a story-board technique, that provides you with the required business background for a given configuration activity. Towards configuring SAP FI, you will start your learning with SAP enterprise structure focussing on SAP FI/CO organizational units, their definition and assignment. Then, you will learn about FI global settings, in great detail, spread over three Chapters. You will learn about fields, ledgers, field status variants, fiscal year and posting periods. You will also learn parallel accounting, integration of SAP Controlling with SAP FI and configuring company code global parameters. Later, you will learn about documents (document structure, document types, posting keys, screen variants, document change rules, bar code entry, tolerance groups, summarization, default values, business transaction types, recurring entries, document parking and document archiving) besides inflation accounting and correspondence. Finally, in FI global settings, you will learn taxes: the tax on sales and purchases, the settings required for calculation / posting and interfacing your SAP system with external tax application (Vertex). You will also learn about withholding tax, including extended withholding tax: the configuration settings and how to manage withholding tax changeover. You will also learn SAP G/L Accounting, in great detail, covering the preparations required for creating the master data including chart of accounts, account groups, sample accounts etc. You will learn how to create / process G/L accounts, besides understanding the configuration towards business transactions like document splitting, cross-company code transactions, open item clearing, balance interest calculation, closing operations, and preparing for 'going live'. As with my other books on SAP, this book also follows a case-study approach to make your learning easy. Efforts have been taken, throughout the book, to guide you step-by-step in understanding how to configure your SAP system, to meet

your exact business needs. Each configuration activity has been discussed with appropriate screen shots (from an SAP system) and illustrations to help you 'see' what is being discussed in that activity / step. You will see a lot of additional information, provided across the Chapters and the Sections, to help you understand a topic or a configuration setting or a concept better. The entire content of the book, vide various Chapters, has been presented as in SAP IMG (Implementation Guide), for easy comprehension. You will come across with appropriate menu paths and Transactions, to help you to navigate the various activities. In all, you can use this book as a desktop-reference for configuring SAP FI. As the Chapters have been progressively elaborated, you will certainly find this as informative and easy to comprehend.
