Suitable for upper division courses in Diplomatic History, Diplomacy and Statecraft, or history of foreign relations. Moderne Diplomatie wirkt heute in viele Bereiche des modernen Lebens hinein. Sie ist zugleich selbst neuen Einflüssen ausgesetzt. Faktoren, die unsere Gesellschaften verändern, verändern auch unser Regierungshandeln, auch in der Außenpolitik, seien es Digitalisierung, emotionalisierte Sensibilitäten unserer Öffentlichkeiten oder nicht-staatliche internationale Akteure. Derartige Entwicklungen müssen von der Diplomatie aufgenommen werden, damit sie weiter als Instrument einer Regierung funktionieren kann. Regierungen sollten Wege finden, zwischen den neuen Bedürfnissen der Gesellschaft und den Notwendigkeiten legitimen Regierungshandelns zu vermitteln. Das Ziel sollte sein, als souveräner Staat handeln zu können und zugleich das Potential der tiefgreifenden gesellschaftlichen Veränderungen zu nutzen. Mit Beiträgen von Volker Stanzel, Sascha Lohmann, Andrew Cooper, Christer Jönsson, Corneliu Bjola, Emillie V. de Keulenaar, Jan Melissen, Karsten D. Voigt, Kim B. Olsen, Hanns W. Maull und R. S. Zaharna

They have given mankind unique triumphs in science, literature, philosophy, music, and art. They have also produced Hitler and the Holocaust. They are romantic and conservative, idealistic and practical, proud and insecure, ruthless and good-natured. They are, in short, the Germans. In this definitive history, Professor Gordon A. Craig, one of the world's premier authorities on Germany, comes to grips with the complex paradoxes at the heart of the German identity. His masterly study explores the roots of many contemporary institutions in German history and closely examines such topics as religion, money, Germans and Jews, women, professors and students, romantics, literature and society, soldiers, Berlin, and the German language. Craig also discusses the events surrounding the fall of the Berlin Wall and the German reunification, while offering invaluable insights into Germany's pivotal role in world affairs for over a century.

Written in clear and accessible prose, GLOBAL POLITICS discusses the major theories of international relations and provides students with the historical background to understand global politics. The new edition is a thorough revision and reflects the latest developments in world events and the study of international relations. The text is organized into five parts: theory and history, states and foreign policy, security relations, economic relations, and global challenges. It focuses on today's most urgent issues, such as international conflict, economic alliances, and terrorism and global security. A theoretical chapter on global politics covers six major perspectives on international relations and clearly explains the premise and significance of each theory. Reflecting the profound changes in international society in the past decade and the challenges that all Powers' diplomacy and statecraft face, whether opposing or encouraging these changes, this fully revised and updated edition provides a unique multifaceted assessment by experts of the new international order. Built around the thesis that Great Power rivalry dominated after the end of the Cold War, it examines how this multi-polarity has become more extreme. The Handbook assesses the diplomacy and statecraft of individual powers in seven key sections: • The Context of Diplomacy • The Great Powers • Middle Powers • Developing Powers • International Organisations and Military Alliances • The International Economy • Issues of Conflict and Co-operation It shows how diplomacy and statecraft have transformed on issues such as the evolving "America First" strategy; the strengthening of the People's Republic of China; the growth of non-state actors in foreign policy; the unravelling of international arms control agreements; the aggressive nature of Russian foreign policy; and the emergence of major armed conflicts and the rise of terrorism and armed insurgencies around the world. It will be of interest to government and non-governmental actors, established scholars and students in the fields of international relations, history, and military studies.

This book proposes an innovative and comprehensive framework for conducting statecraft in the 21st century. Called neo-statecraft, this framework is based on the reconciliation of power, interests and justice. The author proposes four substrates of neo-statecraft: 1) a new structure he calls meta-geopolitics, which includes seven inter-related dimensions of state power and identifies a Geostrategic Tripwire Pivotal Corridor (TPC); 2) a sustainable national security paradigm that stresses the centrality of justice, symbiotic realism and transcultural synergy; 3) a new concept called just power, which states that power must be smart as well as just, and that global justice is above all a national interest of all states; and 4) a new concept called reconciliation statecraft of the eight global interests. Dr. Nayef R.F. Al-Rodhan is Senior Scholar in Geostrategy and Director of the Programme on the Geopolitical Implications of Globalisation and Transnational Security at the Geneva Centre for Security Policy, Geneva, Switzerland. "This book offers a refreshing and ambitious re-examination of the nature of statecraft and geopolitics and contains a number of relevant concepts that can be translated into brand-new research and ambitious policy goals. Building on a number of his previous concepts, the author continues a remarkable endeavour aimed at updating and adapting traditional geopolitical perceptions. Step by step, brick after brick, the author is clearly building a major comprehensive contribution to strategic thinking and diplomacy." Professor Francois Gere, Director of Research at Paris 3 Sorbonne Nouvelle and President of the French Institute for Strategic Analysis (IFAS), Paris, France. "This book provides a carefully crafted description of how the international system is being transformed and defines the challenges facing contemporary statecraft in handling that transformation. Nayef Al-Rodhan has undertaken this enormous task by defining the concept of meta-geopolitics and addressing potential future problems while making full use of the analytical tools that he has developed. It is a unique and intellectually courageous undertaking that will help us gain deeper
