This book is an essential guide or foundational toolkit for anyone who is involved in the process of developing, offering or selling any type of product or service. Based on how to surf on the waves of innovation and the principle of "form follows function" (System Architecture), it introduces and connects concepts like Market Understanding, Design Thinking, Design to Value, Modularization and Agility. It introduces readers to the essence of these main frameworks and provides a toolkit that explains both theoretically and practically when and how to utilize which one. The methods and processes described in this book have all been successfully tested in many industries. They apply in today’s market context of high uncertainty, complexity and turbulence, where innovation and disruption are essential. Readers will find answers to two fundamental questions: How can we implement an innovation process and environment that are conducive to successful product design? And, if our products fail to appeal to customers, how can we achieve a major turn-around with regard to product development? A wealth of examples and case studies help readers to benefit from the authors’ broad professional experience. Further, lessons learned and conceptual summaries provide valuable shortcuts to the methods and tools discussed. For today’s CEOs, enabling innovation is one of THE most complex leadership tasks. But innovation is not about theory and nice buzzwords. It’s about succeeding in the real world. This ‘hands-on’ book connects the dots and introduces the reader to some of the most relevant ideas and pragmatic concepts fitting today’s business reality. Dr. Robert Neuhauser, Executive VP and Global Head People and Leadership Development, Siemens At the most fundamental level this book brings order to chaos. It sets different and highly relevant design approaches into a complementary picture, rather than presenting them as competing ways of solving the same problem. Product designers, managers, consultants, scholars and students will surely have this valuable book within reach on a daily basis. Olivier L. de Weck, Ph.D – MIT Professor of Aeronautics and Astronautics and Engineering Systems, Editor-in-Chief Systems Engineering

Gerald K. Stone has collected books about Canadian Jewry since the early 1980s. This volume is a descriptive catalog of his Judaica collection, comprising nearly 6,000 paper or electronic documentary resources in English, French, Yiddish, and Hebrew. Logically organized, indexed, and selectively annotated, the catalog is broad in scope, covering Jewish Canadian history, biography, religion, literature, the Holocaust, antisemitism, Israel and the Middle East, and more. An introduction by Richard Menkis discusses the significance of the Catalog and collecting for the study of the Jewish experience in Canada. An informative bibliographical resource, this book will be of interest to scholars and students of Canadian and North American Jewish studies.

Hermes Press is proud to announce their second major collaboration with Paws, Incorporated producing another unique title featuring everyone’s favorite orange cat, GARFIELD! Hermes and Paws have come together to treat the world to a compendium of the greatest examples of original artwork from classic Garfield daily and Sunday comic strips in their original size, including rare unpublished strips, that has never been seen before (the Sunday strips will be reproduced in a slightly smaller format due to their huge size)! This historic archival reprint will feature hundreds of pieces of original production art from the comic strip, with an introductory essay from Jim Davis himself! If you love Garfield and want to experience the strips as they were originally drawn, this is the book for you! From the very beginning in 1979 to the last non-digital strip in 2011, this purrfect book shows you Garfield like you’ve never seen him before! Jim Davis' Garfield: The Original Art Daily and Sunday Archive dives deep into the treasures contained in the vaults of Paws, Inc. See how Garfield has evolved over the years! See gags with characters that no longer appear in the strip (*We miss you Lyman!*) in the original links, with notations galore from the man behind it all, Jim Davis! Garfield, Odie, and the rest of the gang come to life in this full-sized archival reprint.

Written by leaders in the addictions field, 100 authors from six countries, this handbook is a thoroughly comprehensive resource. Philosophical and legal issues are addressed, while conceptual underpinnings are provided through explanations of appetitive motivation, incentive sensitization, reward deficiency, and behavioral economics theories. Major clinical and research methods are clearly mapped out (e.g. MRI, behavioral economics, interview assessments, and qualitative approaches), outlining their strengths and weaknesses, giving the reader the tools needed to guide their research and practice aims. The etiology of addiction at various levels of analysis is discussed, including neurobiology, cognition, groups, culture, and environment, which simultaneously lays out the foundations and high-level discourse to serve both novice and expert researchers and clinicians. Importantly, the volume explores the prevention and treatment of such addictions as alcohol, tobacco, novel drugs, food, gambling, sex, work, shopping, the internet, and several seldom-investigated behaviors (e.g. love, tanning, or exercise).
