Asterix and the Falling Sky is the thirty-third volume of the Asterix comic book series, the ninth solely written and illustrated by Albert Uderzo and the only volume to introduce science fiction elements into the otherwise historical comedy series. The book was intended as a tribute to Walt Disney and a satire on the state of the French comics industry. It was released on October 14, 2005 to commercial success, but was panned by the critics. This was the final volume produced by Uderzo before h

After the third incident of a media broadcast led to the panic of millions they gave it a name; a Sky Fall Event. As Stephenson works to stop these events from ever happening again, another group has realized their potential for wealth and power. If they can cause mass hysteria they know where local stock market will crash. If they can evacuate cities with widespread panic, they can sell the weapon to the highest bidding government. In 1988 one of the worst Events in history occurred on the Portuguese coast. In the mass evacuation people were trampled and stores looted. But this time it was no accident. Members of the CIA were testing the weapon. Now, Stephenson

everyone in the small town of Splendor, Ohio, was affected when the local steel mill exploded. If you weren't a casualty of the accident yourself, chances are a loved one was. That's the case for seventeen-year-old Franny, who, five years after the explosion, still has to stand by and do nothing as her brother lies in a coma. In the wake of the tragedy, Franny found solace in a group of friends whose experiences mirrored her own. The group calls themselves The Ordinary, and they spend their free time investigating local ghost stories and legends, filming their exploits for their small following of YouTube fans. It's silly, it's fun, and it keeps them from dwelling on the sadness that surrounds them. Until one evening, when the strange and dangerous thing they film isn't fiction--it's a bright light,

If the Sky Falls is the debut short-story collection from award-winning fiction writer Nicholas Montemarano. These eleven stories show why Jayne Anne Phillips has called Montemarano "an American stylist capable of redeeming our darkest dreams." Redemption in these intense and sometimes violent stories is found in the lyrical prose, in the act of storytelling itself. A young man tries to rescue his sister from her abusive lover, and in the process must revisit his own family's violent history ("Note to Future Self"); a home healthcare worker pops pills and takes two men with cerebral palsy to a strip club ("The Usual Human Disabilities");

a man has a breakdown years after witnessing a brutal murder and doing nothing to help the victim ("The Other Man"). In "The November Fifteen," a man is taken from his home and tortured, though he has no idea why; when he returns home he finds a different kind of torture awaiting him. Two of the stories -- "Shift" and the Pushcart Prize--winning "The Worst Degree of Unforgivable" -- are stylistic tours de force. But style in this collection is always at the service of story. Montemarano's fiction maintains that rare balance between traditional storytelling and experimentation: his work is innovative without being flashy, sincere without being sentimental. In an age of hype, If the Sky Falls truly is the real thing -- an original and important achievement in the short-story form.
