Math Expressions is a comprehensive standards-based K-5 mathematics curriculum that offers new ways to teach and learn mathematics. Combining the most powerful elements of reform mathematics with the best of traditional approaches, Math Expressions uses objects, drawings, conceptual language, and real-world situations to help students build mathematical ideas that make sense to them. - Publisher.

This research-based K-6 program is built to provide instruction on the Common Core Standards, and includes special emphasis on the Mathematical Practices and Learning Progressions at every grade level. Based on the NSF-funded Children's Math Worlds project and over 10 years of research, Math Expressions is proven to be effective in raising student achievement. Hands-on and inquiry driven, Math Expressions Common Core teaches students how to represent solutions and explain their answers. This approach helps develop problem-solving and reasoning skills. The strong emphasis in Math Expressions on representation and discussion opens up the world of mathematics to all learners. Every lesson includes intervention, on-level, and challenge differentiation to support classroom needs.--Publisher.

"A math program from Singapore created for U.S. classrooms, fully correlated to the Common Core State Standards"--Back cover.
