This work seeks to answer questions about the great religious traditions in the contemporary age. It focuses upon those religions that continue to demand the attention of the Western world. Following an introduction on the philosophy of religion,

attention is focused on Hinduism, Buddhism, Judaism, Christianity, and Islam which are religions that have had (and probably continue to have) the greatest number of followers in Western society. In addition to the lasting impact that religion has had in society, we are witnesses to the development of secularism on the one hand and the revival of religious sentiment on the other, thus chapters on modernity, postmodernism, and 'fundamentalism' have also been included. The distinctive feature of the book is its modern feel. Each chapter brings the reader up-to-date with recent developments and commentaries upon recent religious thought, theology and religious-political movements. Moreover, the length of the chapters permits a detailed analysis which is so often lacking in books on world religions.

Explains the basic beliefs, customs, and rituals of twelve different world religions, and includes information about tribal and native religions of Africa, North America, and Australia.

This wide-ranging reader combines some of the best and most valuable contemporary perspectives from leading and significant writers, teachers, and thinkers who together address critical challenges and opportunities for the world's religions in a post 9/11

The World's Religions, by beloved author and pioneering professor Huston Smith (Tales of Wonder), is the definitive classic for introducing the essential elements and teachings of the world's predominant faiths, including Hinduism, Buddhism, Confucianism, Taoism, Judaism, Christianity, Islam, as well as regional native traditions. This revised and updated edition provides sympathetic descriptions of the various traditions, explaining how they work "from the inside," which is a big reason why this cherished classic has sold more than two million copies since it first appeared in 1958.

Can Islam be located on a map? Is Europe the center of the Christian world? Is India a Hindu nation? While decades ago these questions were often answered in the affirmative, the truth has never been that simple. Not only are adherents of particular faiths spread across the globe, but there are many variations of a particular faith

practiced side by side. This has only become more true in recent years as the pace of globalization has quickened. The essays collected here provide brief and accessible introductions to the major world religions in their global contexts. The volume begins with an introduction to the globalization of religion by Mark Juergensmeyer, and is followed by individual essays on Christianity, Islam, Judaism, Hinduism, Buddhism, and local religious societies. The book concludes with three essays reflecting on the global religious scene. Taken together, these essays provide a concise, authoritative, and highly readable introduction to the state of worldwide religion in the 21st century.
