Follows a young Rube Goldberg from morning until night as he uses one complicated invention after another to "simplify" his life.

If Rube's inventions are any indication, "normal" means something very different in the Goldberg household. For Rube, up is down, in is out, and the simplest path to accomplishing an everyday task—like brushing his teeth or getting dressed—is a humorously complicated one. Follow Rube as he sets out on a typical school day, overcomplicating each and every step from the time he wakes up in the morning until the time he goes to bed at night. This book features fourteen inventions, each depicting an interactive sequence whose purpose is to help Rube accomplish mundane daily tasks: a simple way to get ready for school, to make breakfast, to do his homework, and so much more.

Follow along with young inventor Rube Goldberg on his day off from school in this wacky, STEAM-focused picture book A "definitely different" follow-up to Rube Goldberg's Simple Normal Humdrum School Day, written by Jennifer George, the granddaughter of Rube Goldberg, and illustrated by award-winning artist Ed Steckley. In their latest collaboration, they imagine Rube Goldberg as a young inventor who builds complex machines to solve simple, everyday problems. Follow along as he invents zany chain-reaction contraptions to have the best day off from school ever—including a simple way to play fetch in the yard without leaving his bedroom, a self-operating swing, and a super simple series of movie snacking machines.

Discover how Rube Goldberg followed his dreams to become an award-winning cartoonist, inventor, and even an adjective in the dictionary in this inspiring and funny biographical picture book. Want to become an award-winning cartoonist and inventor? Follow your dreams, just like Rube Goldberg! From a young age, Rube Goldberg had a talent for art. But his father, a German immigrant, wanted Rube to have a secure job. So, Rube went to college and became an engineer. But Rube didn't want to spend his life mapping sewer pipes. He wanted to follow his passion, so Rube got a low-level job at a newspaper, and from there, he worked his way up, creating cartoons that made people laugh and tickled the imagination. He became known for his fantastic Rube

Goldberg machines—complicated contraptions with many parts that performed a simple task in an elaborate and farfetched way. Eventually, his cartoons earned him a Pulitzer Prize and his own adjective in the dictionary. This moving biography is sure to encourage young artists and inventors to pursue their passions.

Not many of us make it into the dictionary as an adjective. But then again, Rube Goldberg was no ordinary noun. He was a cartoonist, humorist, sculptor, author, engineer, and inventor, and in a 72-year career he wrote and illustrated nearly 50,000 cartoons. Goldberg (1883–1970) was the most famous cartoonist of his time, best known for his comical inventions, which were syndicated in daily newspapers throughout the world. Author Jennifer George celebrates all aspects of her grandfather's career, from his very first published drawings in his high school newspaper and college yearbook to his iconic inventions, his comic strips and advertising work, and his later sculpture and Pulitzer Prize-winning political cartoons. Also included are essays by noted comics historians, rare photographs, letters, memorabilia, and patents, many reproduced here for the first time. Brilliantly designed and packaged to capture the inventiveness of Rube Goldberg's work, *The Art of Rube Goldberg* is a coffee table book the whole family can enjoy. From Merriam-Webster's Dictionary: Rube Gold·berg. adjective \rüb-'gol(d)-?b?rg\ : accomplishing by complex means what seemingly could be done simply ; also: characterized by such complex means. also: Rube Gold·berg·i·an

The hilarious first book in an all-new illustrated middle-grade series starring young inventor Rube Goldberg—now in paperback *Grab a wrench, flip a switch, and get ready to spring into this all-new, sidesplitting illustrated series featuring a young master of machines—Rube Goldberg!* With summer gone too quickly, Rube must finally face what he's been dreading all vacation: middle school! He's not ready for new classes, new people, new everything—and it's really taking a toll on him. With his anxieties in full gear, all Rube wants to do is do what he does best: invent! When Principal Kim announces that the school is going to throw a Contraption Convention—Con Con—Rube is ready to show off his skills and get out of his funk! But things just can't seem to go right for Rube: He gets banned from Con Con, his friendships are strained, and weird, ghostly incidents begin to throw the town into total chaos. But Rube has a big solution to every little problem, and he's ready to get back on track, solve the ghostly mystery, and come up with something brilliant before it's time to face the judging table!

A collection of more than 90 humorous inventions which have appeared in the author's cartoons during his career.

When one fearless fox grabs the zookeeper's keys and opens all the cages, increasing numbers of animals behave in most unusual ways, in a counting book complete with crazy creatures creating chaos!
