THE THIRD PART IN THE ADDICTIVE NEW 4-PART EBOOK-SERIAL FROM ROBERTA KRAY. NO ONE KNOWS CRIME LIKE KRAY I'm keeping an eye on Ava Gold just in case her routine changes. The attack will be swift and silent, a lesson in efficiency. If you're going to do a job, you have to do it properly. It's a satisfying feeling having everything in place. I know there's always room for error, but careful planning goes a long way towards a successful outcome. The devil, as they say, is in the detail. Ava Gold is in trouble. Holly is still missing, there are now two dead bodies, and Chris Street is in the frame for at least one of those murders. Then there are the anonymous notes she keeps receiving, not to mention that Lee Bullen won't leave her alone. She knows that she should tell the police what she knows about Holly, but there's so much going on she doesn't know what to deal with first. And that means she's too distracted to notice that the most dangerous threat is getting closer and closer . . . The final part of The Payment is also available to download now! Read what people are saying about Roberta Kray: 'Once you start to read you can't put it down' 'Full of twists and turns' 'Love this writer, great read' 'Brilliant and gripping from beginning to end'

"Nineteen Eighty-Four: A Novel", often published as "1984", is a dystopian social science fiction novel by English novelist George Orwell. It was published on 8 June 1949 by Secker & Warburg as Orwell's ninth and final book completed in his lifetime. Thematically, "Nineteen Eighty-Four" centres on the consequences of totalitarianism, mass surveillance, and repressive regimentation of persons and behaviours within society. Orwell, himself a democratic socialist, modelled the authoritarian government in the novel after Stalinist Russia. More broadly, the novel examines the role of truth and facts within politics and the ways in which they are manipulated. The story takes place in an imagined future, the year 1984, when much of the world has fallen victim to perpetual war, omnipresent government surveillance, historical negationism, and propaganda. Great Britain, known as Airstrip One, has become a province of a totalitarian superstate named Oceania that is ruled by the Party who employ the Thought Police to persecute individuality and independent thinking. Big Brother, the leader of the Party, enjoys an intense cult of personality despite the fact that he may not even exist. The protagonist, Winston Smith, is a diligent and skillful rank-and-file worker and Outer Party member who secretly hates the Party and dreams of rebellion. He enters into a forbidden relationship with a colleague, Julia, and starts to remember what life was like before the Party came to power.

She was a poor Southern tobacco farmer who worked the same land as her slave ancestors, yet her cells—taken without her knowledge—became one of the most important tools in medicine: The first " immortal " human cells grown in culture, which are still alive today, though she has been dead for more than sixty years. HeLa cells were vital for developing the polio vaccine; uncovered secrets of cancer, viruses, and the atom bomb ' s effects; helped lead to important advances like in vitro fertilization, cloning, and gene mapping; and have been bought and sold by the billions. Yet Henrietta Lacks remains virtually unknown, buried in an unmarked grave. Henrietta ' s family did not learn of her " immortality " until more than twenty years after her death, when scientists investigating HeLa began using her husband and children in research without informed consent. And though the cells had launched a multimillion-dollar industry that sells human biological materials, her family never saw any of the profits. As Rebecca Skloot so brilliantly shows, the story of the Lacks family—past and present—is inextricably connected to the dark history of experimentation on African Americans, the birth of bioethics, and the legal battles over whether we control the stuff we are made of. Over the decade it took to uncover this story, Rebecca became enmeshed in the lives of the Lacks family—especially Henrietta ' s daughter Deborah. Deborah was consumed with questions: Had scientists cloned her mother? Had they killed her to harvest her cells? And if her mother was so important to medicine, why couldn ' t her children afford health insurance? Intimate in feeling, astonishing in scope, and impossible to put down, The Immortal Life of Henrietta Lacks captures the beauty and drama of scientific discovery, as well as its human consequences.

THE FIRST PART IN THE ADDICTIVE NEW 4-PART EBOOK-SERIAL FROM ROBERTA KRAY: NO ONE KNOWS CRIME LIKE KRAY You think you know who I am. Five seconds is all it takes to sum me up and dismiss me. But a man needs company, and I want a woman who's worth the effort. There's no rush, though. I'm not going to make the same mistake twice. As I've found to my cost, bodies are hard to get rid of. Ava Gold is working the late shift as a cabbie when she picks up a passenger, a young woman named Holly, who's worse for wear. Not knowing where to drop her off, Ava ends up letting Holly crash at her place - but she will regret this act of kindness come the morning. Because opening her home up in this way sets Ava on a dangerous path. It's a path that leads to missing women, murder and the one man she's been trying to stay away from: local nightclub owner, Chris Street. And it also brings her to the attention of another man, a man no one is watching but who's been watching Ava for a very long time . . . Part two of The Payment will be released on July 10th - pre-order now!

This is the ninth edition of John Tiley's major text on revenue law, covering the UK tax system, income tax, capital gains tax and inheritance tax, as well as incorporating sections dealing with corporation tax, international and European tax, savings and charities. This new edition is fully revised and updated with the latest case law, statutory and other developments, including Finance Act 2019. The book is designed for law students taking the subject in the final year of their law degree, or for more advanced courses, and is intended to be of interest to all who enjoy tax law. Its purpose is not only to provide an account of the rules but also to include citation of the relevant literature from legal periodicals and some discussion of, or reference to, the background material in terms of policy, history or other countries' tax systems.

Okonkwo is the greatest warrior alive, famous throughout West Africa. But when he accidentally kills a clansman, things begin to fall apart. Then Okonkwo returns from exile to find missionaries and colonial governors have arrived in the village. With his world thrown radically off-balance he can only hurtle towards tragedy. Chinua Achebe's stark novel reshaped both African and world literature. This arresting parable of a proud but powerless man witnessing the ruin of his people begins Achebe's landmark trilogy of works chronicling the fate of one African community, continued in *Arrow of God* and *No Longer at Ease*.

A Short Course in International Payments describes how to use letters of credit and documentary collections, how to grant and obtain credit, and how to use cyberpayments in international trade. The book also has an excellent section on trade documentation.
