Transylvanian Sunrise, Moonrise & The Romanian Sphinx Nov 27, 2011 Author Peter Moon discusses the mysterious underground holographic hall of records found in 2003 by advanced satellite radar technology located at the sphinx of Romania in the Bucegi Mountains (close to the region known as Transylvania).

Sequel to Transylvania Sunrise wherein Radu Cinamar meets the Tibetan lama who orchestrated the discovery of ancient technology under the Romanian Sphinx

Radu Cinamar is recruited for Department Zero and explores the tunnel from the Bucegi Sphinx chamber to a similar chamber beneath Giza where a time travel device is found.

Radu Cinamar's sixth book is about his continued liaison with the Inner Earth civilization Apellos where he views certain key aspects of the history of Mankind by viewing holographic projections which are facilitated by a headset he wears featuring advanced technology that is able to interact with his cerebral cortex and intuition. The result is a compelling tale of how multiple extraterrestrial civilization influenced and steered the DNA of Mankind to evolve as well as the accompanying history which includes a description of ancient civilizations such as Atlantis, the building of the pyramids, the Egyptian Sphinx, Hyperborea and other interesting mysteries.

In this exhilarating description of mysteries inside the Earth, Radu Cinamar presents a unique way to penetrate the Inner Earth through the process of feeling and the effects that will develop from such an experience. To enhance the readers understanding of this very guarded subject, this book includes multiple illustrations that include depictions of Inner Earth geography. Familiar characters from the Transylvania Series also reappear, including the enigmatic Tibetan lama, Repa Sundhi, also known as Dr Xien, who states: If someone had a device or machine that could start up and go everywhere they want, especially towards the centre of the Earth, the machine would be blocked and stop at a certain point because of the frequency of vibration to be found there. Just how far you can go with such a machine can be limited by reason of your own con- sciousness which can in and of itself restrict the dimensional range of such a device or the extent to which it can penetrate other realms. This applies to both human beings as well as material objects. Your ability to access such a region is determined by what your own individual frequency of con- sciousness can or will allow you to experience. This is not only the story of an exciting adventure, it is an opportunity for initiation as you explore the frequencies of your own inner nature.

In 2003, when a mysterious ancient chamber was unearthed beneath the Romanian Sphinx in the Bucegi Mountains, it became a state secret of the highest level for Romania and their new partner, the United States, whose advanced technology enabled the discovery to take place. The primary custodial agency of this remarkable chamber full of holographic technology is Department Zero, a secret service unit that answers only to the Romanian president. Ever since, there has been a continuous and persistent effort by certain Romanian and American factions to undermine the authority of Department Zero in order to gain access to and control this technology.The Secret Parchment – Five Tibetan Initiation Techniques tells the story of the detailed political intrigues behind this remarkable find and also how these matters have been subject to intervention by superior spiritual forces, one of which concerns the arranged discovery of an ancient Tibetan manuscript which is revealed and explained in this book.After the ancient manuscript is translated, a mysteri- ous antenna-like structure reveals itself as a result of melting ice near a secret American base in Antarctica. Acting as some sort of cosmic buoy, it has an energy signature connecting both to Jupiter's moon, Europa, and an area of Transylvania where the remains of an ancient civilization were uncovered in 1990 amidst vast tunnels of solid gold. Long ago classified as the top state secret of Romania, this location becomes the center of intrigue in and around Department Zero. Although not actually penetrating the underground area itself, Peter Moon visits the general area and determines that this ancient civilization is still very much alive and active.

Where was Jesus between the ages of 12 and 30? The Bible says nothing of these years or his whereabouts during that time. There are clues, however, and the author follows some of them in this book, bringing us to a conclusion which he feels is the most obvious. Because this book is easy to read it is recommended for young readers as well as old.

THE ETHERIC CRYSTAL – THE THIRD TUNNEL concludes both a numerological cycle (cycle 7) and offers the mystery of the last tunnel in the chamber beneath the (Romanian) sphinx, left unexplored by the author until 2015. After their expedition, this volume makes a very interesting turn, directing Radu to spawn special project which attracts a unique collaboration of characters, both from the underground city of Apellos but also with the American side. Also, for the first time in almost 14 years, Radu Cinamar offers us some additional conversations and collaboration with the enigmatic Elinor, the quintessential alchemist, who becomes deeply involved with the new project. The book also presents a key piece of information, long debated and considered until now an unsolved mystery, which refers to the real origin of the Moon. Everything is explained in chronological detail, following up on the elements about the origin of man presented in the previous volume, Forgotten Genesis. THE ETHERIC CRYSTAL is full of fascinating information that opens the horizons of our knowledge and of our individual evolution.

In From Nicopolis to Mohács, Tamás Pálosfalvi offers an account of Ottoman-Hungarian warfare from its start in the late fourteenth century to the battle of Mohács in 1526.

Beyond the Light Barrier is the autobiographical story of Elizabeth Klarer, a South African woman and Akon, an astrophysicist from Meton, a planet of Proxima Centuri that, at a distance of about 4.3 light years, is our nearest stellar neighbor. Elizabeth was taken in his spaceship to Meton, where she lived with him and his family for four months and where she bore his child. Her life on Meton is fascinatingly described. Akon brought Elizabeth back to Earth after the birth of their son, and continued to visit her thereafter. Akon explained how his spaceship's light-propulsion technology operated, and how it allowed him and his people to travel across vast interstellar distances. This technology is explained in detail in the book. Elizabeth was given a standing ovation at the 11th International Congress of UFO Research Groups at Weisbaden in 1975, and her speech as guest of honor was applauded by scientists of twenty-two nations. Light Technology Publishing is proud to bring you the long-awaited American edition in both hard copy and electronic format of Beyond the Light Barrier, which was first published in English in 1980
